**AGENDA**

Pre- bid meeting for tender for supply and installation of water tanks at Hola power station (civil and mechanical works) tender no. KP1/9AA-2/PT/07-NM/14-15.

Prospective bidders were taken through both preliminary and technical parts of the tender document. It was clarified that tender validity period is 90 days therefore tender security for the bidder awarded should remain valid for 120 days . Bidders were advised to read the tender document thoroughly in order to come up with the most suitable bids.

Bidders we satisfied with the contents in the tender document, though there were some areas they wanted clarification as follows:

**Question 1**

Will Kenya Power provide security of materials during transportation to Hola substation?

**Response**

Kenya Power only provide security of good/Materials which are within it premises.

**Question 2**

Whether it is a must to have all the pipes of 50mm2 diameter high pressure ball valves?

**Response**

Bidders were advised to adhere on what is stated in the BQ.

**Question 3**

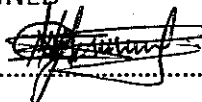

Is a site visit mandatory?

**Response**

Site visit is not mandatory but the bidders were encouraged as this will make them familiarise with the site hence making them to come up with the most competitive bids. However they were advised to liaise with KPLC-Off Grid Power Stations Department whenever they will be making visit for reception arrangement.

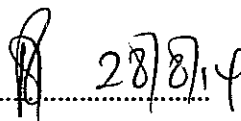

Bidders were advised that they can clarify any issue regarding tender document but not later than seven (7) days prior to the deadline for submission of the tender.
