M/s.

6th July, 2015

Dear Sir/Madam

# ADDENDUM 1 TO TENDER NO.KP1/9AA-2/PT/56-ID/14-15 - FOR PROVISION OF BUILDING & CIVIL WORKS AT KILIFI 132/33KV SUBSTATION

#### 1. RELATIONSHIP WITH THE PRINCIPAL TENDER DOCUMENT

Save where expressly amended by the terms of this Addendum, the Principal Tender Document shall continue to be in full force and effect.

The provisions of this Addendum shall be deemed to have been incorporated in and shall be read as part of the Principal Tender Document.

- 2. Section VII There is additional Technical Specifications for AC Distribution and Auto Changeover Board which is hereby attached.
- 3. Section IX The bill of quantities has been revised and is hereby attached.
- 4. Section X Evaluation criteria clause 6.4 the weighted bid score formula has been amended to read as follows:-

$$B = \int \frac{closv}{c} x + \frac{\tau}{\tau(high)} (1-x) J - D$$
Where, D is an absolute value given by:
$$D = \int \frac{Econt. - Eeng}{Eeng} I$$

Where:

D=Bidder's deviation from Engineers Estimate

Econt. = Contractor/Bidders bid amount

Eeng = Engineers Estimate

#### N/R

All other definitions remains the same as per tender document.

5. The tender closing date has been extended from 8th July, 2015 to 15th July, 2015 at 10.00am.

All other terms and conditions of the tender remains the same.

Yours faithfully,

For: KENYA POWER & LIGHTING COMPANY LIMITED.

BERNARD NGUGI

SUPPLY CHAIN MANAGER( PROCUREMENT).

## Technical specifications for ac distribution and auto changeover board.

### I Dimensional specifications.

- 1. The plates shall be made of mild steel of 2.0mm thickness.
- The Front, Back, Top and Side Plates shall be joined by folding and interlocking the over lapping edges. The overlapping edges/flaps shall be bolted together by use of counter Sunker bolts/Screws
- 3. The panel shall sit on a rectangular base (shoe) of 100mm in height.
- 4. Earthing Copper strip (2mm thick by 800mm long) must be installed at the base of both side plates.
- 5. The bolts shall flash on the outer surface of the plates and shall not protrude for more than 2mm on the inner surface of the panel.
- 6. The base of the panel should have two removable glanding plates with the following holes;
- a) 2nos. 32mm<sup>2</sup> diameter on the side with input contactors.
- b) 6nos. 25mm<sup>2</sup> diameter on the distribution side.
- c) 6nos. 20mm² diameter on the distribution side.
- 7. The top plate shall be fitted with a lamp holder bracket with a hole for fitting a standard lamp.
- 8. The front shall be a double door each hinged on either side breaking at the centre with a 3-point lock-rod latch mechanism and a detachable key. Also shall have a pocket for putting drawings on inner side.
- 9. The auto changeover shall be 2000mm x 800mm x 1800mm.

### II Auto-changeover components and specifications.

- 1. 2 no. 200A input contactors 240V AC
- 2. 1 no. 4-pole manual bypass switch

- 3. Facility for manual and electrical interlocking of the 2 input contactors.
- 4. Control voltage for the auto-changeover to be 240V AC.
- 5. Facility for phase failure relay for the 2 input sources.
- 6. Facility for voltage presence indication for the 2 input sources.
- 7. Facility for the auto/manual operation of the panel.
- 8. Facility to switch between preferred & alternative source.
- 9. Facility to show whether in auto or manual mode.
- 10. Facility to show the voltage and current level of the busbar.
- 11. 200A rated copper busbar.
- 12. Wiring to be done with 2.5mm<sup>2</sup> insulated copper wire.
- 13. Current carrying wires to be black with clearly indicated ferrule labels showing the phase.
- 14. Earthing wiring to be done using yellow/green wires.
- 15. Control cabling to be done using grey colour wires with ferrule marking.
- 16. Voltage carrying wires to be colour coded (Red, Yellow, Blue, Black)
- 17. Facility to select the phase-phase voltage levels.
- 18. Facility to pick contacts indicating loss of AC to the remote terminal unit.
- 19. 8 no. four-pole 32A miniature circuit breakers.
- 20. 4 no. four-pole 63A miniature circuit breakers.
- 21. 10 no. double-pole 16A miniature circuit breakers
- 22. 4 no. double-pole 2A miniature circuit breakers
- 23. 2 no. double-pole 6A miniature circuit breakers

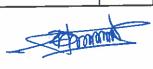

The preferred source will always be in service. Once the preferred source is lost, the alternative source is picked after a set time delay. Once the preferred source is back, it should then be picked.

Channel .

	PROPOSED CIVIL WORKS AT KILIFI 132/33 KV SUBSTATION				
	BILL OF QUANTITIES.		- 8		
TEM	DESCRIPTION	UNIT	QTY	RATE	AMOUNT
	SECTION. 1				
	Preliminaries				
Α	Allow for a temporary site office ,notice board, shelves and , store for materials and tools storage. To accomodate 7 people and all furniture and meeting accessories	ITEM	1		
В	Allow for clean water for the works	ITEM	1		
C	Allow for all the necessary statutory approvals for the worksby relevant county authorities; Replication of drawings to required formats by county government; Endorsement by relevant proffesional persons; and submit a set of approved drawings before commencement and as built drawings to client on completion, including site registration & NCA fees.	ITEM	1		
С	Allow for temporary sign post for the proposed works	ITEM			
	Allow for temporary sign post for the proposed from				
D	Allow for security and insurance for the proposed works	ITEM	1		
E	Allow for supply of power connection for use for the works.	ITEM	ı		
F	Allow for a qualified personel conservant with Kenya Power safety regulations for the entire contract period; with capacity to receive safety permits and double up a 'safety officer'	ITEM	1		
G	Allow for prompt communication and updates facilitation to client supervision team including communication and project data storage, laptops, hard drives, airtime etc	ITEM	1	넴	
	TOTAL THIS PAGE
