

## Press Release

Good morning,

Kenya Power will launch a **meter inspection today exercise targeting 2 million customer installations** in both large power and domestic customer segments.

The aim of the exercise is to detect cases of electricity theft and fraud, prevent meter tampering and subsequently enhance billing accuracy for customers.

The exercise will kick off this morning at Industrial Area. Press briefing will be done at **Oil Libya petrol station located at Lusaka Road – Enterprise Road junction** between **11.00 a.m. and 11:20 a.m.**

You are invited for press coverage. Please call my mobile phone number provided below for direction to the press briefing location.
