

CAREER OPPORTUNITY

The Kenya Power & Lighting Company PLC is a well-established and recognized leader in electricity distribution and retail in the region. KPLC is established as a limited liability company under the Companies Act, Cap 486, and Laws of Kenya. The Company's key mandate is to purchase bulk electricity supply, distribute and retail electricity to end-user customers throughout Kenya. KPLC is at the forefront of spearheading accomplishment of Vision 2030. Kenya Power is seeking to recruit results driven and highly motivated individuals to fill the following exciting and challenging positions within Supply Chain & Logistics Division.

1. 3RD ASSISTANT ENGINEER, E-MOBILITY, CENTRAL OFFICE, MG10 - (1 POST) **JOB REF. HR: KP1/5B.2/1/3/1659**

The position will be reporting to the Chief Engineer. The key duties and responsibilities will include;

- Developing and implementing E-Mobility strategies to support the company's sustainability goals
- Managing projects related to EV charging infrastructure, including design, installation, and maintenance
- Troubleshooting and fixing electrical issues in electric vehicles and electric motorcycles, including batteries, motors, and charging systems.
- Developing and managing budgets for E-Mobility projects
- Developing EV and EV charging infrastructure product specifications
- Conducting market research and staying up-to-date with industry trends, emerging technologies, software updates, and manufacturer recommendations for electric vehicles.
- Ensuring compliance with regulatory requirements related to E-Mobility, such as safety standards and environmental regulations
- Collaborating with external partners and vendors to source E-Mobility equipment and services
- Developing and maintaining relationships with stakeholders, including government agencies, industry associations, and customers
- Participating in training and professional development programs, workshops, and seminars to stay current with the latest technologies and techniques in the field of electric vehicle repair.
- Complying with safety protocols when working with high-voltage electrical systems to prevent accidents and ensure a safe working environment.

Appointment Specifications:

- Bachelor's degree in Mechatronics Engineering, Electrical Engineering (Electronics & Control systems), Automotive Engineering or related field from a recognized institution
- A minimum of Five (5) years' relevant work experience
- Registration with Engineers Board of Kenya (EBK)

- Strong understanding of electrical systems, power electronics, and control systems
- Understanding significant aspects on electric vehicles systems and diagnosis
- Ability to work in a fast-paced environment with multiple priorities
- Drive for results and achievement
- Strong problem-solving and analytical skills
- Ability to work collaboratively as part of a team
- Creativity and Innovative thinking to develop effective solutions
- Effective verbal and written communication skills and Negotiation Skills
- Detail-oriented with excellent record-keeping abilities
- Commitment to Company Vision and Values
